- It's allready great.

Nothing.

Just equal as in Croatia.

I don't know, all of it depends of what time of the year it is, because this time was winter and all of the mobilites were a little bit sketchy, but if someone comes here on spring or summer we can consider about many things to do with them and locations we can take them on, as Ušće and they can watch kite surfing, then klek maybe where we can have great time and swim or organize the boat "Lipa Moja" (it all depends on its costs) and go on a little boat trip to see Pelješki most or some specific place that has interesting history behind of it self...

More interesting meetings

I think that can be more younger students in this program.

I think younger students should be treated more seriously
