

Here is the main entrance and the main building

My school is placed in Gdańsk, city of Poland on Wąsowicza st. My school is quite big and it is 70 years old. Students are aged from 5 – 15. There are a lot of classrooms. The cloakroom is placed in the basement of the school, students have their own lockers where they leave their boots. The school has got its two own sport halls, one is inside the school building and the second one is separated from school building and it takes some minutes to get there. Some of my classes are on the ice rink *Olivia* right next to the school. The school is placed next to a new skyscraper *Olivia Star* which is like 160 meters tall! Our school has got a big hall, on the second floor there is a teachers' room and nurse's room. It's very cool school. I like it so much.

Janek Romanowski

School hall

There are two floors and three corridors in our school. In the first corridor, which is located on the ground floor, there are: classrooms, toilet, door to the headmaster's office, The common room, canteen, changing rooms for boys and girls, a room for visitors and gym. On the first floor there are: information boards, classrooms, teachers' room, toilets. And on the last or second floor there are: classrooms, assembly hall and toilets. In the assembly hall are meetings, workshops and other events organized.

There are many interesting places on the first floor of my school. You will find there: themed exhibitions nurse's office and a board with important information for all students. The first floor is an important place in school and it is worth visiting often.

The information board is located next to the teachers' room. It is made of cork with a wood frame. This table shows some different important information: teacher changes, school and sports competitions for students, school room changes, etc. Students often read information from this board.

The hall is large and long, on one side there are school rooms and teacher's room on the opposite side there are very large windows and a patriotic exhibition about the battle of November 11. There is a white and red national flag and an emblem with a white eagle. The all exhibition is very interesting.

CHEMISTRY CLASSROOM

The chemistry classroom in our school is located on the first floor, to the left of the teachers' room, at the very end of the corridor. We do a lot of interesting experiments there. Next to the room there is a chemical base, where there are various dangerous substances and laboratory equipment. This classroom is not only for chemistry lessons but also for physics. On the walls there are many posters with curiosities from the world of chemistry and physics. This classroom is one of the largest in the school and the only one with two boards. This is my favourite classroom in our school

MY SCHOOL GYM

Opening the gym after the renovation, 15.10.2018
We invited the President of Gdańsk for the opening.
The whole school was at the grand opening.
Our headteacher was very happy.

CHEERLEADERS

- At the our gym cheerleaders can train dance.
- Girls prepare gymnastic , dance and acrobatic systems.
- They do show at sport matches

ACROBATICS

- We have special mat to acrobatics exercises.
- Large space allow training in the pairs
- Can now do a lot of difficult exercises

hokey

- We have special equipment so we can practice stick exercises with our trainer.
- In our gym we can learn new hockey tricks together.
- trainer is now satisfied with the joint exercises.

GIMNASTICS

Childrens can do the gymnastic exercises

It became more pleasant to performance gymnastic and acrobatic systems.

There is more space for exercises with a skipping rope, wheel and ball.

BASKETBALL

- We have special equipment to basketball at the gym.
- We often play teams games in PE lessons

We have stickhandling lesson
We train together in the whole class

We have special ladder
so we can do various exercises, for example
jumping above ladder.

In the new gym, the trainer teaches us
difficult exercises

PLAYING

At the gym we can Play football, volleyball and handball

Everybody likes to play football

Now we can play our favorite game on every PE

UNIHOCKEY

- We can play unihockey
- We are the champions in this game
- In our gym we are preparing for most important matches

In our school on the ground floor there is a big school canteen.
It has got two rooms - dining room and kitchen.
In dining room teachers and students eat dinners.
In the kitchen the cooks cook soups and another food.

We don't like school dinners too much because they are tasteless and sometimes smell bad.
The canteen houses a lot of tables and chairs.
Our school's policy is promoting healthy food. So diners are very healthy.
Every week disabled people go to the kitchen to help the cooks.
On Friday morning you can smell the fish fried in the kitchen. **No one likes it.**
Long lunch breaks at our school are from 11:30 to 12:45.
